Don't **Compromise.**

Unifying **Clinical Data** and **Submission Strategy** for the **Global Life Sciences Industry**

Breakthrough Outsourcing World-Class Consulting Game-Changing Software

- Do you require the ability to look at electronic clinical data across studies to evaluate safety profiles and make critical go/no go decisions?
- Do you want to limit electronic data conversion costs for mission critical regulatory submissions?
- Are you preparing your organization to support data standards such as CDISC SDTM?

Octagon's Data Standardization Expertise Incorporated into One Comprehensive Package

Octagon's CDISC SDTM compatible **Data JumpStart** offering is a collection of documents, libraries and templates that facilitate institutionalization of data management standards and provides everything you need to deploy data standards across your organization and to outsourcing partners. The package represents over 300 hours of expert development time by CDISC knowledgeable data management professionals. Your success is ensured with guidance and training by expert consultants.

Octagon's Data JumpStart Includes:

- Library of 18 Standardized CRFs
- Annotated CRFs with SDTM variables in PDF format
- SDTM compliant database specifications
- Laboratory specifications for central lab vendors
- Standard templates for Completion Guidelines, Validation Guidelines, and Edit Checks
- Library of standard queries that support paper, fax and EDC studies (approximately 40-50 queries that provide consistent, quality data and minimize re-querying)
- Data management plan template (~60 pages)
- Sign off and approval sheets for CRF, edit checks, Database Release for Testing, Completion Guidelines and many more
- Four hours of expert data management consulting
- Standard Edit Checks for all CRFs included in the Data JumpStart package will be available in Version 2
